

Introduction to Functional Maths and English

This qualification is ideal for anyone wanting to build their English and maths skills.

The initial entry level 3 qualifications will give you an introduction to English skills, covering reading, writing and speaking. Once you have completed this, you can progress on to the Level 1 Certificate, which covers further English skills and an introduction to maths skills.

Skills covered include:

- Spelling and handwriting skills
- Engage in discussion
- Writing composition skills
- Aspects of citizenship
- Presentation skills
- Understanding length, weight and capacity
- Understanding and using percentages
- Understanding and using fractions

**Free
Places
Available***

On completion of the programme there is an opportunity to progress to a Functional skills course at Entry 3 or Level 1.

Learners will need to be at least 19 years of age and have a basic understanding of English and maths.

**To apply contact the College, or
pop in and see us at Reception**
